JAPANESE DEPARTMENT STORES

**Delicious to eat,
satisfying to buy.**

Introducing
51
Stores!

The vast majority of our shops are tax-free. We also have in-store Tax-free Counters which can handle enquiries and transactions in several languages. And for an extra charge, we can also offer to deliver your shopping to your hotel, or even an overseas location.

Comprehensive support for our overseas customers

Over the last few years, department store support services for overseas customers have become increasingly comprehensive. Not only do we have bilingual staff and multilingual floor guides, but also "Point and Speak Sheets" for our staff who cannot speak foreign languages. We have come to handle nearly all major credit cards for shopping, and some department stores have even set up currency exchange areas. With us, you don't even need to go to the bank! Pretty convenient, don't you think?

Department store services are basically free

In addition to free fitting rooms (which goes without saying), we have a host of other services which are basically provided free of charge, including shoe-fittings, makeup testing, and food tasters. And if you are choosing your souvenirs, you can even enlist the help of a concierge who will warmly attend to your needs! Our cloakroom services, where you may leave your luggage and purchased items, are another convenient feature. And even in the rare instance that services entail an extra charge, we will take utmost care to inform you in advance.

If you would like free wrapping for your gifts, we can provide that too. We can even add a carefully tied ribbon and a message card.

Top-class products approved even by discerning Japanese customers

Department stores offer the highest quality goods from both inside and outside Japan. Put simply, if a product fails to convince our buyers (whose sense for quality has only been strengthened by demanding customers), it will never make its way to our shop floor.

Welcome to the land of totally unmarked and unscratched products! The Japanese are said to be the strictest in the world when it comes to product quality. And it goes without saying that department stores are lined with reliable products which pass the approval tests set by these highly discerning customers. Quality is a given, which is why, for example, the safety of our food products is given the highest importance. There is something very appealing about the fact that if you buy something from a department store, you need never worry about the quality.

Combining clothing, foods and homeware to ensure the whole family can have fun throughout the day

A large number of department stores offer a huge variety of food products on basement floors known as "Depa-Chika." In-store, it is standard to have cosmetics and jewelry on the 1st floor, ladies' shoes and bags on the 2nd floor, and then several floors of ladies' fashion. The upper floors are dedicated to menswear and children's goods, home living, kitchen items and gifts. There will also be an event floor for you to enjoy, while the very top floors with the spectacular view are reserved for restaurants. There's so much to enjoy that you and your family could easily spend an entire day with us!

Mum goes off shopping, dad takes the kids upstairs for some enjoyment, and then everyone meets up on the restaurant floor afterwards. Everyone can have fun in their own way.

Convenient shopping near the train station

Department stores serve as landmarks at the most important stations, and might well be dubbed "the face of the town." Our Information Desks are ever-ready to greet our customers with a smile!

A comprehensive rail network running impeccably on time is one of Japan's famed characteristics. But what the Japanese especially like is convenient facilities easily accessible from the train station. And among the most convenient of those facilities are department stores, located in prime locations which often adjoin the stations themselves. With us, you have a space near to the station with a fantastic product lineup clearly divided among different floors. Not only can you shop easily but we can even take care of your baggage, meaning that you can confidently walk around all day and never get tired!

The Japanese Department Store: a Treasure House of Hospitality

Japanese department stores have become world-famous for their highly considerate form of customer care known as *omotenashi* Japanese hospitality. The thinking behind our services revolves around the question: "Just how pleasant an experience can our visitors have?" It is about putting ourselves in the customer's shoes, and ensuring that our services reflect the spirit of carefully considered customer care. And if you experience our services first-hand, you will most likely get to know Japan even better!

Department Store Shopping: Convenient and Worry-free!

The Tax-Free System, which allows you to enjoy shopping in Japan, has been reformed to bring you even more benefits! Whether purchasing your most coveted items or souvenirs, you are really going to reap the benefits from tax-free shopping in Japan.

Most department stores operate highly convenient Tax-free Counters which allow you to complete the tax-free shopping process for items purchased on any floor. Feel free to enjoy a relaxing, high-quality shopping experience!

⚠ Tax-free Shopping: Points of Note

1.

The daily purchase amounts (per person, per store) that qualify for tax-free shopping differ for general items and consumables. For general items (bags, shoes, watches, jewelry, clothes, golf items, craft items, etc.), the tax-free amount is 5,000 yen or above (excluding tax). For consumables (cosmetics, foods, drinks, tobacco, supplements, etc.), the tax-free amount is between 5,000 yen and 500,000 yen (excluding tax). Please remember that items qualify as tax-free **only** on the day of purchase.

However, as a result of reforms to the Tax-Free System made in July 2018, if you designate general items you buy to be treated as consumables (i.e. placed inside a designated bag which you do not open before leaving Japan), you can now – unlike before – combine purchases of general items and consumables in order to reach tax-free shopping thresholds.

Total purchases of at least 5,000 yen will qualify as tax-free

Total purchases between 5,000 and 500,000 yen will qualify as tax-free

Purchases of consumables between 5,000 and 500,000 yen will qualify as tax-free

2.

You will need to show your passport in order to complete the tax-free shopping process. When shopping in Japan, please make sure to bring a passport with a Japan Entry Stamp inside.

3.

Under Japanese Law, you must apply for tax-free status on the day of purchase. Items purchased on previous days cannot be included in your tax-free application.

4.

We will provide a designated bag for products designated as consumables. Please do not open the designated bag before leaving Japan. If the bag is found to be opened at customs, you will be made to pay the relevant consumption tax at that time.

5.

Please be aware that you cannot complete the tax-free shopping process on another person's card, even if the cardholder is a member of your family.

Fantastic Depa-

Depa-chika: **6**-point checklist

Point 01 **Seasonal** Height-of-season products

Japan is a country where the four seasons clearly reveal their differences. The first depa-chika charms that spring to mind are the displays which reflect the season. Starting with the showcase sweets and household dishes, depa-chika boast a full lineup of height-of-season foods which you can enjoy with all five of your senses.

Point 02 **Local** Delicious products from across the country

Only in Japan can you find 47 regions displaying a variety of individual climates and natural features. And if you want to relish all those famous local products renowned throughout the country — the ingredients, the household dishes, the cakes, and the local sake — look no further than the department stores!

Point 03 **Exclusive** Items which are only available here!

"Exclusive" is a word that gets an immediate reaction from the Japanese. And the institution responsible for sparking the "exclusive" boom was none other than the department store! Depa-chika also boast packaging and product variations unique to particular stores. These exclusive items are certainly well worth coming to see!

Point 04 **Fresh** Invigorating freshness

It goes without saying that depa-chika are full of fresh foods including fruits, vegetables, fish and meat. Furthermore, if you get leg-weary while shopping, you can refresh yourself in the depa-chika by picking up some fresh juice from a nearby stand.

Point 05 **Experts** Advice from those who know

Depa-chika boast such a rich variety of goods that you might even find yourself stuck for which ones to choose! However, a reassuring presence is provided by the array of specialist experts on offer, including concierges, sommeliers and sake masters! There are even "vegetable sommeliers" and "sweets attendants" at your service!

Point 06 **Displays** Beautiful displays well worth a look

Just as with window shopping, you can have more than enough fun by simply looking around all the various displays within the depa-chika. Fruits arranged like flower shop bouquets and the delicately arranged vegetables practically implore for their photographs to be taken!

Shinjuku, Shibuya, Ikebukuro, Ginza—Japan's capital city is simply dotted with shopping areas. Here, department stores take on the roles of station landmarks. Meanwhile, on the outskirts of Tokyo lie two cities with firm links to the old Edo capital: Kawagoe (also known as "Little Edo") to the northwest, and Ibaraki (of Mito Komon fame) to the northeast. Hokuriku/ Chubu *Areas*

The Chubu area encompasses Nagoya, Japan's third largest city. As if in contrast to the historic Nagoya Castle, several symbols of modernity lie in various locations across the city. The neighboring area of Shizuoka plays host to another Chubu gem — Mount Fuji, now a World Heritage Site. And if you cut across Honshu to the north, you reach the Hokuriku area fronted by elegant Kanazawa City, which has been dubbed “the land which yields one million koku units of rice.”

The Kansai area is popular for its Big 3 Cities spread across three prefectures: Kyoto, Osaka and Kobe. Osaka, with its unique flashy advertising boards and shop signs, is completely different to Kyoto. The port city of Kobe, meanwhile, is worth checking out for its exoticness. There are also tons of sightseeing spots to be enjoyed in Nara and Wakayama. Meanwhile, the Chugoku Area plays host to Setouchi, which has been dubbed "the Japanese Aegean Sea."

Japanese department stores may be popular for their “depa-chika” basement food floors, which offer several items exclusive to Japan. This statue symbolizes “sincerity,” the basic philosophy Mitsukoshi adheres to for its customers. Mr. Gengen Sato, a master craftsman, spent ten years producing this great work. The statue was erected in 1960 at the central hall on the first floor of the main building, in celebration of the fiftieth anniversary of the Mitsukoshi Department Store. The statue depicts the goddess wrapped in a swirl of clouds at the moment she descends to the flower stem, demonstrating its breathtaking beauty.
